What's new in Fifa 22:

- **FIFA 22 introduces HyperMotion technology, a revolutionary new motion capture and player animation system powered by 200 million real-world human movement samples. It's the first time a motion capture system has been used for gameplay in a FIFA game.**
- **With more than 200 game updates, FIFA 22 contains the largest collection of game-changing game-changing content to date. From FUT Draft to FUT Pro Clubs, from expanded matchday improvements to superb goal celebrations, from FIFA Moments Shortcuts to a new Ultimate Team chest update, FIFA 22 will change the way you play.**
- **For the first time ever, all online modes can be played cross-platform against players from all around the world. Along with the launch of FIFA 22, FIFA Ultimate Team - featuring global player level-ups and changes to the Champions League - launches on May 26th and is available now from Xbox.com.**
- **Clubs can be more easily replaced in Manager Mode, thanks to a new player transfer interface and configurable player list. For more on this and other features, visit play.easports.com.**
- **Improved Kick of the Year, which is now more accurate and can also be scored off the chest.**
- **Improved touch line replays so you can see those winning goals, free kicks and other special moments.**
- **FIFA Ultimate Team: Mobile is now available to download at the App Store and Google Play. Download here.**
- **Thanks to improved player presentation, header presentations are more dynamic in FIFA 22. You can see touches on the ball before crosses in the first-person view.**
- **Dynamic camera work and action focus display make it easier than ever to follow the action, even if the game speed has been adjusted.**
- **Finally, P2P matchmaking is now available. When turning on P2P in-game, teammates are matched on similar playing profiles and there is a visual display of people in-game who are P2P capable. Failing a P2P connection will lead to the in-game system trying to match you with players of similar skill level on Clubs.com. Players can matchmake more easily on Clubs.com until the in-game P2P system kicks in.**

FIFA is EA SPORTS' most played videogame franchise, with over 79 million players worldwide and more than 83 million sold. Play the game that started a revolution, today. How is FIFA 22 Different? The greatest football action on any platform brings its biggest season to life on a huge variety of mobile and tablet devices. Optimized for touch controls and featuring dynamic 3D graphics, EA SPORTS FIFA 22 delivers the most realistic and complete football gameplay experience on any device. A Matchday Career - Improve Your Skills and Earn More In addition to a tremendous array of new faces and new stadiums, including the opening of the first FIFA 20 Fan Hub, FIFA 22 introduces many gameplay advancements designed to address the challenges facing all players on the field, including an improved defensive AI, improved build-up play, the introduction of player fatigue, the evolution of Verbo, and an enhanced celebration system. • Enhanced defensive AI system - FIFA 22 introduces intelligent defenders that will adapt their strategy and play style to the opponent, as well as to their tactical set-up. For example, as a direct result of enhancements in player intelligence, AI players now understand the player with the ball and immediately change their positioning if they know where the player is trying to play. • New sprinting AI - Running in FIFA 22 is smarter than ever. Players now automatically use the best sprinting paths to reach their destination and get the most out of their energy. This improves the visual and tactical effect of players running to a location. • New build-up AI - Assists become even more effective as they now have more time to work when they are deep in defence. As a result, one-on-one situations become more realistic and tactical set-up play and positioning are better understood on both sides of the ball. • Authentic ball control - The ball has become much more responsive. Every touch can lead to a scoring chance, a long pass or a shot, and more than ever, your decisions in the air dictate the type of outcome. • Improved opponent positioning - Improved AI and smarter defenders allow the opposition to play more tactically and at a higher level. Players will now read the game more quickly and will make smarter decisions when they defend. • Improved ball control - A faster ball gives a much more realistic impression of the game. It is now easier to dribble, pass, and shoot while running at full speed, and while striking a ball you will feel
